Map of fishing for River Irthing

River Irthing Directions

Leaving Gilsland head north towards RAF Spadeadam. When you reach the RAF "No Admittance" road sign, at Moscow Farm, turn right over the cattle grid. The first farm you come to is Wiley Syke, the road skirts this farm and then reaches the turn off for Horseholme Farm. This is Marked P1 on the map.

P1. There is ample hard standing at the turn off to Horseholme (please leave room for articulated vehicles turning into the farm entrance. Cross the river and walk downstream until you come to the fence, our fishing starts over the fence.

P2. There is a dip in the road and a bridge over Rough Syke. There is parking beside the grit heap for two cars. You then have a short walk to the river.

P3. Turn right for the Lampets. Park off the road before going over the bridge. Please note our fishing is single bank at this point, the Lamperts side is private.

P4. There is ample hard standing at the bridge. Looking upstream from the bridge you will see the water is very canal like, it does not change all the way to the source.
